EDUCATION

University of Georgia | Athens, GA

Aug 2024 - May 2027

Bachelor of Science, Computer Engineering · GPA: 3.60

Honors: Zell Miller Scholar (Full Tuition); Dean's List; Undergraduate Research Grant (2025)

Relevant coursework: Data Structures & Algorithms, Machine Learning, Data Science, Statistics & Probability, OOP, Linear Algebra

EXPERIENCE

Investment Operations Intern | Franklin Templeton (*Incoming*)

May 2026 – Aug 2026

- Selected as summer intern with Franklin Templeton; will support data workflows and visual reporting across enterprise

Gameday Student Ambassador | University of Georgia

Jul 2025 – Present

- Delivering premium operational support for 240+ VIP guests; automated team workflows, reducing response time by 20% across high-volume game-day operations

Co-Founder & Full-Stack Engineer | DogArmor AI

May 2025 – Present

- Architected end-to-end AI platform for personalized dog gear recommendations using YOLO pose-estimation; led product from ideation to live deployment, managing all technical and strategic decisions
- Built scalable RESTful backend (Flask, Python, Azure) and interactive front-end; designed modular data pipelines enabling real-time recommendations and iterative model improvement

Undergraduate Research Assistant — AI/ML | University of Georgia

Jul 2025 – Present

- Designed LLM-powered agent workflows to classify blood-cell clusters and automate biomarker generation, cutting manual annotation effort and accelerating laboratory throughput
- Built reproducible Python model-training pipelines (Pandas, PyTorch, scikit-learn) for experimental datasets, improving data quality and cross-run consistency

Virtual Experience Programs | Forage (BCG & Deloitte)

May – Dec 2025

- Developed Python/SQL workflows to unify multi-source datasets
- Built GenAI chatbot to analyze structured and unstructured data, reducing simulated research time by 30%

Distribution Associate Intern | PBD Worldwide

Aug – Oct 2023

- Redesigned warehouse management workflows for 1,000+ daily orders
- Supported process improvements and improved operational outcomes

LEADERSHIP & COMMUNITY INVOLVEMENT

Applied AI Engineering Fellow | CodePath.org

Jan 2026 – Present

- Selected for competitive national program focused on ML frameworks, AI systems design, and software engineering practices alongside students from top universities

Pro-Bono Volunteer | Atlanta Food Bank - Accenture

May 2024 - Present

- Coordinated distribution of 25 tons of food every quarter for underprivileged families
- Improved packaging workflow efficiency by 20% by streamlining inventory process

Founder & Mentor | Action for the Climate Emergency (ACE) Georgia

Sep 2021 – Present

- Recruited and scaled chapter to 200+ members from the ground up; directed 22 community cleanup initiatives and introduced recyclable programs across 28 school cafeterias

PERSONAL

- Solved 35+ Rubik's Cube variants
- Watching wildlife documentaries
- Authored an illustrated visual book on the journey of Lord Ram (Indian mythology)

Certifications: Machine Learning with Python (FreeCodeCamp), Foundational C# (Microsoft), Agentic AI (LinkedIn)
